BARRIÈRE'S MISSION STATEMENT

*If you believe that elegance and pleasure go hand in hand
like life and celebration, that sitting around a table playing cards
is like taking the stage with your heart in your mouth,
if you are devoted to everything gourmet
and you like to share it with others,
then you have the Barrière spirit.*

*You will find this spirit in our hotels, casinos, restaurants and resorts.
It continues a tradition that has never stopped reinventing itself,
an easy charm made up of elegance, sensuality and impertinence,
known throughout the world as the French art de vivre.*

Barrière, a spirit above all else.

ELEGANCE À LA FRANÇAISE HITS THE MOUNTAINS

A guarantee of French excellence and savoir-faire, this temple of discreet and delicate luxury has gained and maintained a loyal and elegant clientèle base for more than a century. Founded in 1912 by François André and subsequently developed and managed by Lucien Barrière, Diane Barrière-Desseigne and Dominique Desseigne, Barrière has gone through many eras to become market leader in French casinos and a benchmark in the luxury hotel industry.

Through its exceptional properties, the Group embodies French symbols of prestige, refinement and elegance, with the excellence of its service always at the forefront of its concerns. With Les Neiges, Barrière is stepping foot in the mountains for the first time in its history.

LES RESTAURANTS

Fouquet's

Le Fouquet's legend started in Paris back in 1899, with its light wood paneling, golden ceiling lights and red velvet dining chairs, it was closely linked with the world of cinema and became the 'must try' «top of the range Parisian brasserie». Set on the corner of Avenue George V and the Champs-Élysées, it still remains the Parisian 'must-try' brasserie par excellence.

With Les Neiges, the legend is stepping foot in the mountains, taking its philosophy for authentic and traditional French classic cuisine with it, along with its sociable and welcoming atmosphere for which it has become known. The Famous Parisian brasserie has relooked its traditional image in favour of a snowy winter version, better suited to a luxury chalet, with a wood fire, bar and its collection of Harcourt Studio portraits of silver screen stars, as well as a stunning terrace with direct access to the slopes and unrestricted views over the mountains.

Sample unusual culinary combinations such as lobster fricassée with ginger under the envious eye of the Harcourt Studio celebrities that line the walls. Delight your tastebuds with the black truffle fondue in a welcoming and sociable atmosphere by the fireside, before rounding off your meal with a sweet smelling Mont Blanc Fouquet's ...

At the heart of the relooked Fouquet's, discover brasserie classics and traditional French dishes, which are sure to please even the most exacting palates.

This new dining concept, where generosity and a welcoming atmosphere are name of the game, combines the warmth of the ingredients and colours with the element of Fire, which is part and parcel of this culinary journey.

Comprised of 2 different dining areas, BFire is just as popular on the terrace at lunchtime as it is inside for dinner.

At lunchtime, the atmosphere on the terrace is relaxed; guests feast their eyes on the setting as much as the dishes. Surrounded by fire pits and stunning views over the snowy slopes, diners enjoy a selection of specialities, with particular emphasis on slow cooking.

In the evening, the concept is even more defined as it adds an extra touch of refinement to the dishes. Discover a succinct «sharing» menu or «just for me» menu, as well as a generous «celebration time» tasting menu; an avalanche of 7 gourmet dishes to share around the table.

Confit shoulder of lamb served with sweet potato, dates, walnuts and sesame sauce, squash salad - cooked on the wood fire and served with burrata and truffle shavings, churros with chocolate sauce, Dulce de Leche and vanilla-flavoured chantilly cream... a culinary experience that invites guests to share and enjoy life.

LE SPA

A clinical approach to beauty treatments

The Biologique Recherche methodology offers a bespoke approach designed to understand the skin's messages and constantly adjust treatment to enhance the complexion. A highly effective and different kind of treatment experience, it combines a clinical approach to personalised skin treatments. The use of pure products made with complex formulas that comply to original and stringent testing procedures is the basis of the Biologique Recherche methodology's reputation, and which justifies the brand's presence within the Hôtel Les Neiges. Its presence makes even more sense because it is a French family-run business, proud of its origins and it shares the same values for top of the range exclusive treatments as the Barrière group.

For more than thirty years, the Caribbean-inspired St Barth range has been the well-kept secret of top models and other celebrities who retreat to the heavenly Caribbean island of Saint-Barthélemy. Luxurious and authentic, these innovative, environmentally-friendly formulas are based on unique expertise that combines local traditions and research into scientifically proven active substances. Its products are globally recognised by professionals in the cosmetics industry for their originality and exceptional quality. More than just a new spa experience, the St Barth range takes you on a journey for the senses, to discover local fragrances such as papaya, mango, coconut, frangipane flower and their beneficial properties. Immerse yourself in a world of well-being.
